VISIT UNIVERSAL INSTRUMENTS on HALL A2, BOOTH 433

November 14-17 | Messe München, Germany

Don't just rev your engine; drive your manufacturing forward!

Electronics play an essential role in the modern automobile. But building these complex systems can require multiple assembly technologies -- from standard surface mount and odd-form to final assembly automation and hot bar bonding. Our versatile solutions portfolio addresses all of these challenges, enabling you to build the car of the future... *today!* Join us on **Hall A2, Booth 433** to find out more.
