

## next level of bonding

Visit us at Productronica 2017 in Munich, Germany

Visit Hesse Mechatronics from 14 - 17 November 2017 at the international exhibition Productronica - "World's leading trade fair for electronics development and production" – at the Munich exhibition center and experience our latest product generation live!

In Hall B2 - Booth 221 we present our brand new Heavy Wire Bonder BJ985 with battery application, the Heavy Wire Bonder BJ955 with material handling system, with the BJ855 the new generation of fully automated Fine Wire Bonder and with the BJ653 a bonder for manual or automatic bonding.

### Bondjet BJ985 Heavy Wire Bonder

- Large bonding area of 370 mm x 870 mm
- Innovative software features for process monitoring and connectivity
- Changeable heavy wire and ribbon bondheads for aluminum and copper
- Individually adapted automation concepts
- Hesse Assist Tools supporting optimal implementation and monitoring of the bonder

### Bondjet BJ855 Fine Wire Bonder

- Large bonding area of 305 mm x 410 mm
- Innovative software features for process monitoring and connectivity
- Changeable wire and ribbon bondheads for Al, Au, Ag, Cu, Pt, Ni
- Ball-Wedge bondhead as option
- Individually adapted automation concepts
- Hesse Assist Tools supporting optimal implementation and monitoring of the bonder

Our exhibition team will be pleased to provide further information of our products:

- Fine Wire Bonder
- Heavy Wire Bonder
- Leadframe Bonder
- Automation solutions
- Process Support

Contact

For prior arrangements of appointments please contact our sales office, phone +49 5251 1560-222 or e-mail [sales@hesse-mechatronics.com](mailto:sales@hesse-mechatronics.com). We shall forward to you a guest ticket for the Productronica 2017 in return.

**We are looking forward to your visit!**

With kind regards

Hesse GmbH
